

Fenton

CONSTRUCTION CO., INC.

We build high quality structures built with integrity, attention to the smallest detail and a higher purpose in mind...yours.

FIT OUT

Through our detailed and client-focused approach, Fenton offers a wide range of fit out services, tailoring internal spaces to meet specific tenant requirements.

CONSTRUCTION

Fenton's single-source construction offerings ensure you of a successful experience that builds confidence and peace of mind right from the very start.

PERMIT ACQUISITION

Fenton has years of permit acquisition experience, guiding your project through the many agencies with jurisdiction over each application.

PROJECT PLANNING

Fenton works in partnership with each client, evaluating preliminary budgets, schedules and methods of construction, while exploring value engineering options.

DESIGN CONSULTATION

Building with a higher purpose, we work closely with our design professionals to advise them on constructability issues and project costs.

For more than 50 years, Fenton has provided New Jersey, New York, Pennsylvania and beyond, with structures that exceed building specifications and surpass client expectations. We specialize in large-space retail, commercial, industrial, education, sports and religious facilities that do more...so you can do more.
